WORK EXPERIENCE

Web Designer and Wordpress Developer

Creative IT Institute, Chattogram

2023 To Continue

As a web developer at Creative IT Institute, my role involves designing and coding engaging and user-friendly websites. I am responsible for maintaining web applications, troubleshooting issues, and ensuring that our projects align with client requirements and industry standards. My work involves close collaboration with teams to deliver exceptional web solutions.

Front End Developer

SoftTech IT Solution, Dhaka.

May-2022 To Dec-2022

In my role as a Web Designer and E-commerce Expert at Soft Tech IT Solution, I'm responsible for creating visually appealing and user-friendly websites, optimizing e-commerce platforms for enhanced performance, and ensuring a seamless user experience. I collaborate with clients, manage website content, implement SEO strategies, and stay updated with industry trends. My focus is on delivering high-quality web solutions that drive business growth and customer satisfaction.

Web Designer

Beacon IT , Chattogram

Aug-2021 To Nov-2021

Web Designers at Beacon IT are responsible for designing and developing user-friendly and visually appealing websites. They work closely with clients to understand their needs and create websites that meet their specific requirements. Web Designers also collaborate with other web developers to create and maintain websites, and ensure that they are responsive, accessible, and SEO-friendly.

Web Specialist

WebCoder-IT

Dec-2020 To Aug-2021

As a WordPress Developer at WebCoder-IT, I'm responsible for creating, customizing, and maintaining WordPress websites. My role involves optimizing site performance, ensuring security, and implementing SEO best practices. I collaborate closely with clients to deliver tailored WordPress solutions that align with their objectives and provide an excellent user experience.
